MEMORANDUM FOR: Mr. Robert Amory

SUBJECT : [] in Liaison with
NSC Research Clearing House

STAT

REFERENCE : Memo from Mr. Amory to Mr. Bissell,
Subject: Research Clearing House, dated
4 June 1960

I certainly have no objection to [] helping
out with the research clearing house as described in your note.
It is true, however, that [] is totally employed in his new
duties in the CA Staff, and if the research clearing house duty
began to take more than an absolute minimum of [] time,
I would want to assign someone else to the function. [] of
course, would remain available in the background for advice, but
I would not want him to get involved in attending a lot of meetings.
